

**Observation Hour Log**  
**Department of Communicative Sciences and Disorders**  
**Michigan State University**

Complete this form in ink. For each session you observe, enter the amount of observation time (e.g., in minutes) in the appropriate cell. Count only time spent watching a session. Each observation session must be supervised by an individual holding ASHA certification (e.g., the clinician, the clinician's supervisor, a CSD instructor). That individual must sign their name and provide their ASHA membership number next to each session you observe. Be sure to total each column. Do not white out or cross out an error. Instead, draw a single line through it and have the supervisor initial the change.
